The unfortunate reality in this Neighborhood:

- Volunteers pick up over 1,000 needles from the Target Area on a weekly basis dropped from cars, left behind vacant homes, stuck into light poles, thrown in flower beds and left at the Don Samuel Torres Park playground.

- 92% of the streets in the target area have at least 1 vacant lot or structure. This creates an opportunity for drug use. Monitor and call!

- In 2017, a higher number of overdoses occurred on a Monday, Wednesday or Thursday in the neighborhood.

- From 2013-2017, there were 759 Drug Arrests in the neighborhood for possession, possession with intent and sales charges. 46% of those calls were for drugs other than Marijuana.

- From 2016-2017, there were 6,250 Vice calls for service in the Clinton Section (NE Rochester) alone. (NOTE: Vice includes Drugs, Gambling & Prostitution)
The ¡No Más! movement is about changing the conditions of North Clinton Avenue and the surrounding area. Too often drug sales and use are in your face and needles are left all over the neighborhood. Hearing the ambulance sirens and watching this all play out in front of children is painful. We need your help. We need you to help create a better space for all to work, live, play, learn, worship and visit this neighborhood. The campaign message is: “We love you, but not what you are doing to this neighborhood.” Join us online!
